MINISTRY OF PUBLIC ADMINISTRATION

## 1. NEED

Development of the tool for semantic analysis that will be used as a device for establishment and maintenance of Controlled Central Metadata Dictionary

## 2. SOLUTION

Tools for metadata analysis in dictionaries and vocabularies with graphical display

## 3. INNOVATION

Since there was no suitable tool on the market, upgrade of both the hardware and software is innovative and desired

## 4. BENEFITS

Work simplification for system operators when managing the dictionaries and vocabularies and also for legislators, when evaluating metadata and finding possibilities for clarifications
