Login/Logout

1. Login page

- URL of Interreg Central Europe Jems: <https://jems.interreg-central.eu/>
- The usage of up-to-date web browsers (Google Chrome, Microsoft Edge, Mozilla Firefox) is recommended.

- For detailed information on user account creation and user settings see <https://www.interreg-central.eu/library/jems-manual/jems-beneficiaries/user-settings-2/>

- For Jems guidance see <https://www.interreg-central.eu/jems/>
- Jems Interreg Central Europe runs in English language only
- For support contact jems@interreg-central.eu

Dashboard

- Upon logging in, the user lands on the Dashboard as a start page.
- Alternatively, the Dashboard can be opened by clicking “Dashboard” in the top menu bar
- The Dashboard contains the following sections:

¹ Based on Jems User Manual published by Interact

- > Notifications
- > My partner reports
- > My applications
- > Call list

The screenshot shows the dashboard for a user named Lilly Applicant. It includes sections for Notifications, My partner reports, My applications, and Call list. The 'My applications' table shows one application in 'Draft' status. The 'Call list' table shows one call with an 'Apply' button highlighted in a red box.

ProjectID	Acronym	First submission	Latest re-submission	Programme priority	Specific objective	Status	Related call

1. Notifications

- Under this section users see notifications received for their project(s).
- To receive notifications, make sure that this functionality is activated (see Jems guidance on user account settings).

2. My partner reports

- This section displays project reports that a user is privileged to see.

3. My applications

- Under this section, all applications created by the user are listed.
- The user can select a project and open it by clicking on it.

4. Call list

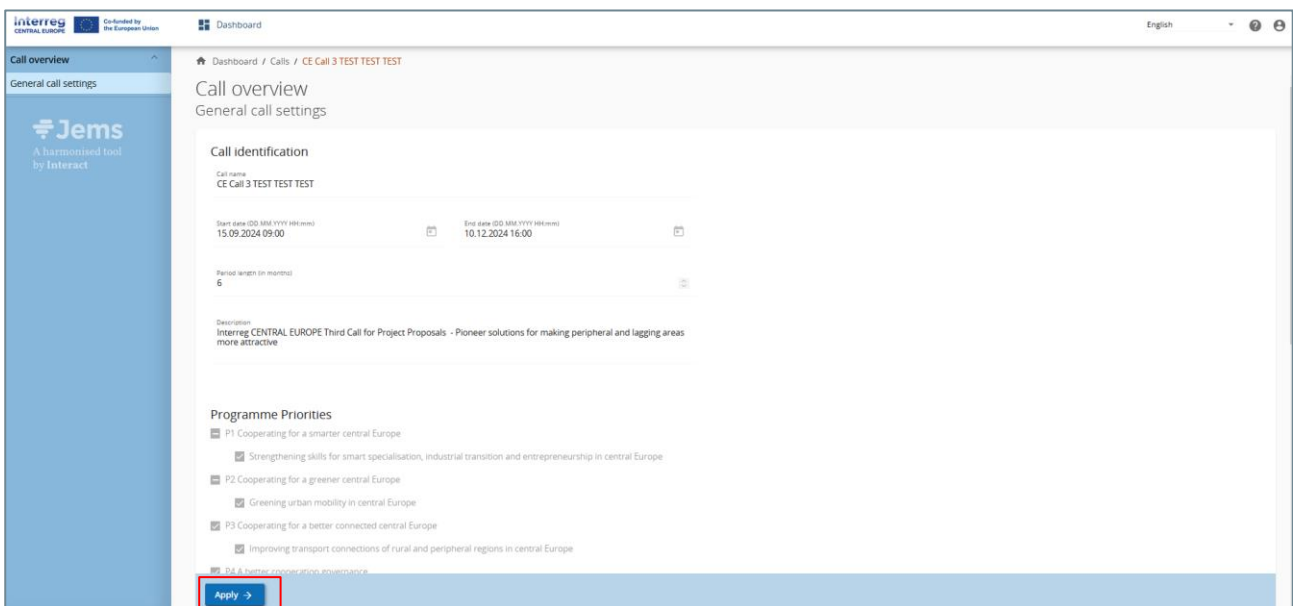

- This section lists all calls which are active and which are planned to start in the future. Open calls have a button to “Apply”.
- The “Apply” button is inactive for calls which are not open for submitting project proposals.

4.1. Apply for a call

In the “Call list” section in Dashboard the user can:

- Apply for a call by clicking the Apply button in the list of open calls.
- Click on the call row itself and see the general call information through a read-only window as shown below.
- A user can also create a project application under the call in this section via the “Apply” button.

Application Form

This section consists of the following sub-chapters:

- Application form usability features
- Project overview
- Application form versioning
- A- Project Identification
- B- Project Partners
- C- Project description
- D- Project budget
- E- Project lump sums
- Check & Submit

- File management (Attachments/Annexes)

5. Application form usability features

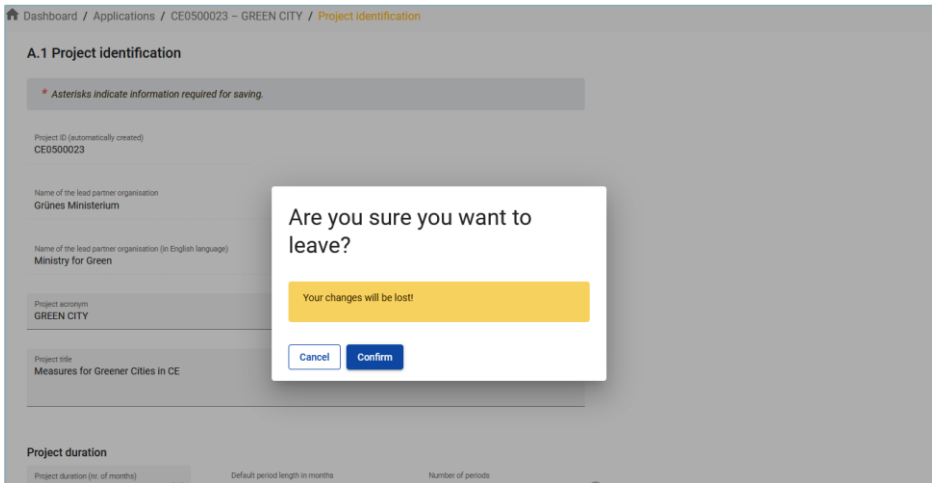

5.1. General information on usability

5.1.1. Editing of input fields:

- Changes made can be saved or discarded. If the user leaves the page without saving, a warning message is displayed.

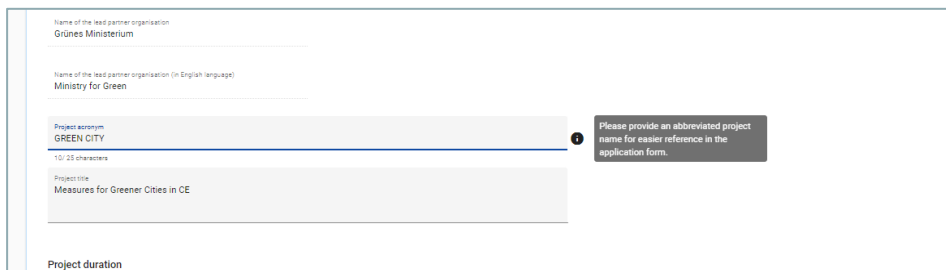

- Mandatory fields are indicated by an “*” in the system.
- A page cannot be saved unless all mandatory fields are filled in.
- Once the application is submitted editing of input fields is no longer possible.

The screenshot displays the 'Application form CE0301019 – GREENmobility' interface. The left sidebar contains a navigation menu with sections A through E. The main content area is titled 'A.1 Project identification' and includes a warning message: 'Asterisks indicate information required for saving. Please be aware there may be gaps in the numbering of sections, due to the programme's configuration of application form for this call.' Below this, there are input fields for 'Project ID (automatically created) CE0301019', 'Project acronym GREENmobility', and 'Project title Greening Mobility in Urban and Peri-urban Areas'. A character count shows '47 / 200 characters'. The 'Project duration' section shows 'Project duration (nr. of months) 24', 'Default period length in months 6', and 'Number of periods 4'. At the bottom, there are 'Discard changes' and 'Save changes' buttons.

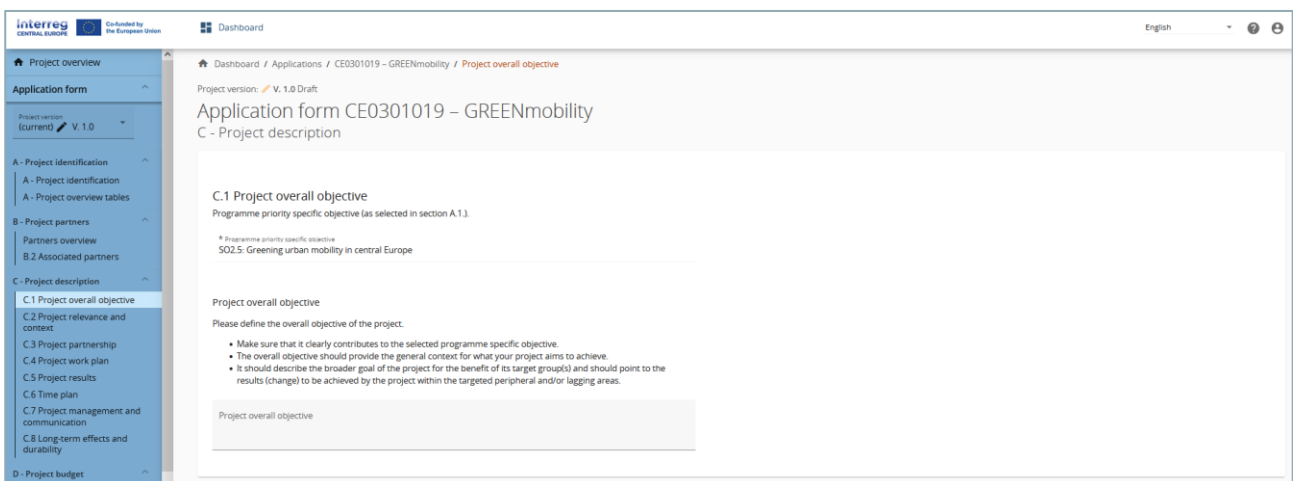

5.1.2. Information icons:

- Upon hovering over the icon “i” further explanation is provided on what to fill-in in the field or how a field is calculated.

5.1.3. Navigation and Menu bars

- Top menu bar
 - > Click “Dashboard” to go to the Dashboard section
 - > Click on person icon to get to the user profile section

- > Click “?” to access support information
- > Click “English” to select Jems language (only English for Interreg Central Europe)
- > Click the person icon to logout from Jems

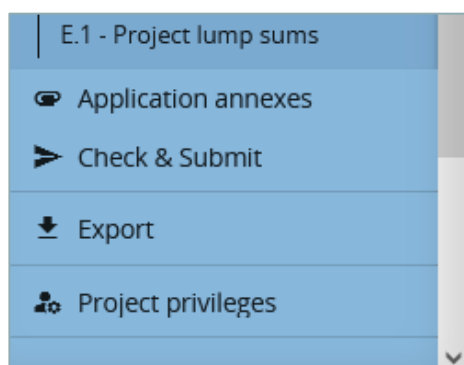

■ Left menu bar

- > To hide/unhide the left menu click the “>”/”<” symbols.

To fold/unfold application form section the “>”/”<” symbols

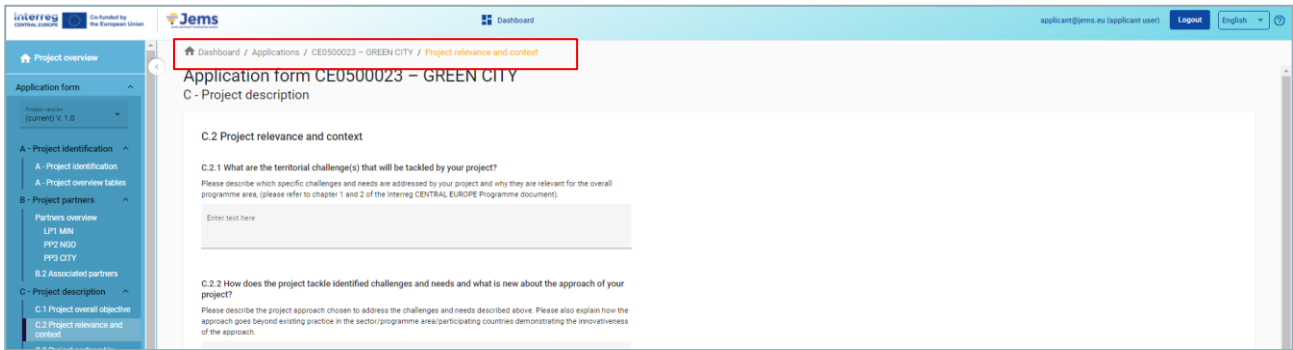

- > Click on the chapters to navigate through the application form
- > Click “Application annexes” to access to the file upload section
- > Click “Check & Submit” to run pre-submission checks and to submit a project application
- > Click “Export” to export the application form as pdf file and the partners budgets as csv file
- > Click “Project privileges” to give other users access rights (view/edit/manage) to your project application. For details see chapter 16 Granting Project Privileges.

■ Navigation bar (bread crumb bar)

- > The navigation bar allows the user to orientate and see the location of the displayed section within Jems starting from Dashboard.
- > The displayed section is shown in orange letters and corresponds to the highlighted section in the left menu.
- > The user can click on a section in the navigation bar to directly access it. This allows a quick changing to a different section alternatively to the left menu bar.

5.2. Application Form language

Since the programme language of the Interreg Central Europe programme is English, the Jems system language selectable in the top menu bar is limited to English.

5.3. Number format and rounding in the Application Form

Budget format settings in the application form:

- inserted as Euro amounts
- numbers and percentages are with two decimals
- comma is used as a decimal separator

The screenshot shows the 'Partner budget' section of the application form. It includes a 'Staff costs' table with columns for Total, Period 1, Period 2, Period 3, Period 4, and Gap. The values are rounded to two decimal places and use commas as decimal separators.

Entry field for total	Total	Period 1	Period 2	Period 3	Period 4	Gap
156.580,00	156.580,00	32.500,00	41.180,00	40.300,00	42.600,00	0,00
+	156.580,00	32.500,00	41.180,00	40.300,00	42.600,00	

Rounding in the Application Form:

- rounding down to 2 decimals (cut off)
- further calculations are done with rounded amounts (e.g. flat rates on flat rates). This rounding mode is applicable to:
 - Calculating totals of budget items
 - Flat Rate calculations
 - Calculation of funding amounts

Example: Flat rate for Office and administration calculated in the budget tables

Office and administration	
Total Office and administration flat rate is calculated by applying the rate (%) to the total Staff costs	
Flat rate for Office and administration	Total
	23.487,00

6. Project Overview

6.1. General purpose

- The Project overview contains all details related to application status, application workflow and application attributes
- The Call information provides the call name (underlined) as a direct hyperlink to the call information and in red the time remaining for the submission of the application from.

Dashboard / Applications / CE0301019 - GREENmobility

Programme priority: P2 - Cooperating for a greener central Europe

Specific objective: SO2.5 - Greening urban mobility in central Europe

Call: CE Call 3 TEST TEST TEST Ends 10.12.2024. Time left: 77 days, 6 hours and 18 minutes.

6.1.1. Application statuses

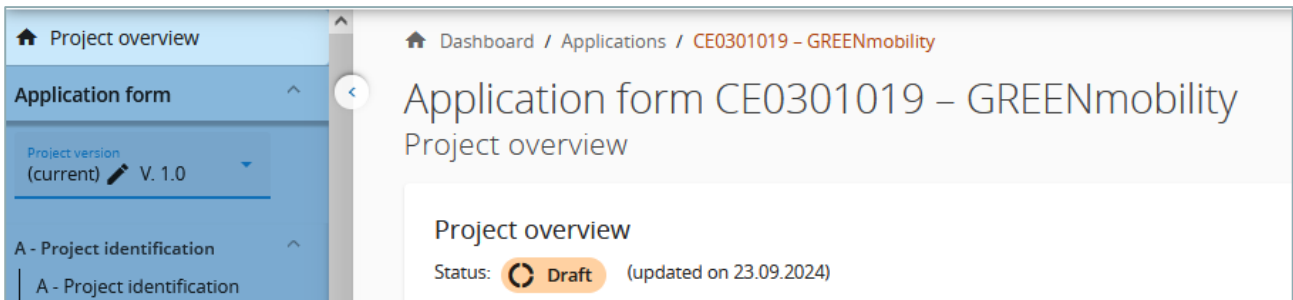

- During the application workflow, the application could take one of the statuses mentioned in the diagram below. The status in light blue indicates that the application form is editable.

7. Project version

- An application form changes during its life cycle. Versioning allows to access historical “snapshots” of an application form.
- Application form versioning is located in the left side menu of Application form section. It is represented by a dropdown with version indication.
- Every application has a version number. Upon creation the version number is “V.1.0” (status Draft). The version number remains unchanged after the first submission.
- The version counts up when an application is returned to the applicant.
- The version number is not linked to the project status
- The active version of Application form in dropdown is indicated by “(current)”. When opening the application form the “current“ version is shown by default.

- To view a previous version of an application form, select a version in the list of versioned application forms. All inputs and action buttons are disabled in previous versions. On top of every screen appears a yellow message box with information on version and application form status. “Switch to current version” allows to return to the current version.

8. Project Identification

The project identification is split in two sub-sections

- A - Project identification
- A - Project overview tables

8.1. A-Project identification

In the project identification section basic information related to the project needs to be provided.

- **Project id**

The Project id is an automatically generated number given by the system. This number is unique per installation and helps the programme to recognise a project. The number is a running number unique per project.

- **Project acronym* (*mandatory field)**

Project acronym is an abbreviation or short name for the project that helps identify the project together with the project id (*mandatory field).

- **Project title**

Text input field for a more explanatory project title.

- **Project duration**

The project duration shall be entered in months and shall indicate the length of the project.

The project duration is also the basis for the calculation of periods in the project and project planning in the rest of the project. The number of periods is calculated as follows: project duration in months divided by the default period length defined by the programme in the call setup.

- **Project priority* (*mandatory field)**

The applicant needs to select the main priority that the project contributes to.

- **Programme priority specific objectives* (*mandatory field)**

Once the Project priority is selected, the Programme priority specific objectives appear. The applicant needs to further specify to which specific objective the project contributes.

- **Project summary**

Text input field for providing an overview on the project application by answering the questions in the guidance text.

- The section can only be saved, once all mandatory fields (marked with an asterisk *) are filled in.

8.2. A - Project overview tables

- Table A.4 Project budget overview

Table A.4 displays the project budget per fund including the contribution. Its purpose is to provide a clear budget overview in section A. Make sure that the “co-financing” section on project partner level is filled in.

- Table A.5 Project outputs and results overview

In the programme setup, programmes can link output indicators to result indicators. This overview table shows the link between output and results in the application form.

3	Active	COM	Partner	Karowicki (PL22A)	77.176,00 €

- The partners overview provides an overview of all the partners within the project. Essential data is displayed in this overview list

- Clicking on the “+ Add new partner” allows for creating a new partner
- Clicking on a specific partner in the lists gives you access to the partner page.
- Clicking on the “Partner total eligible budget” (underlined amount) allows you to directly navigate to the partners budget section on the partner page.
- Clicking the “trash” icon allows you to delete the respective partner.
- The status “Active” is automatically generated upon creation of a project partner. In case a partner of a contracted project leaves the partnership, this partner can be given the status “In-active”.
- For the recommended number of project partners refer to the programme manual and the call specific Terms of Reference (ToR).

9.1. Partner specific section

The screenshot shows the 'Application form CE0301019 – GREENmobility' interface. The left sidebar contains navigation options: 'Project overview', 'Application form', 'Project version (current) V. 1.0', 'A - Project identification', and 'B - Project partners'. The main content area displays the breadcrumb 'Dashboard / Applications / CE0301019 – GREENmobility / Partners overview / LP1 MIN' and the project version 'V. 1.0 Draft'. Below this, the title 'Application form CE0301019 – GREENmobility' and 'Lead partner MIN' are shown. A horizontal tab bar includes 'Identity', 'Address', 'Contact', 'Motivation', 'Budget', 'Co-financing', and 'State Aid'. The 'Identity' tab is currently selected.

The section per single partner contains the following sub-sections accessible via tabs:

- Identity
- Address
- Contact
- Motivation
- Budget
- Co-financing
- State aid

9.1.1. Partner identity

This screenshot shows the 'B.1.1 Partner identity' section. The breadcrumb trail is 'Dashboard / Applications / CE0301019 – GREENmobility / Partners overview / LP1 MIN'. The page title is 'Application form CE0301019 – GREENmobility' and 'Lead partner MIN'. The 'Identity' tab is selected. The sub-section 'B.1.1 Partner identity' includes a dropdown menu for '* Partner role in the project' with options 'Partner' and 'Lead partner'. Below this is a text input field for '* Abbreviated name of the organisation' with the value 'MIN' entered.

- The Partner identity section is used to identify the partner organisation with basic details.

- A partner cannot be created without assigning the role, providing the abbreviated name and choosing the legal status (*mandatory fields).

- Partner role*

The partner role is either Lead Partner or Partner (*mandatory field).

In case a Lead partner already exists and for a new partner the Lead Partner role is selected, the system will ask the user if the existing Lead Partner role shall be replaced. If yes, the new partner will become the Lead partner and renumbering of the partners will apply. The Lead Partner will always be partner number 1 as long as the Application form is in status “Draft”.

- Abbreviated name of the organisation*

The abbreviated name is displayed in the partner overview section (*mandatory field). This name can be used as a reference to the partner using limited characters.

- Name of the organisation in the original language

The full name of the organisation in original language needs to be filled in

- Name of the organisation in English

The English name of the partner organisations is used for databases such as KEEP.

- Department/unit/division

If applicable, the department/unit/division concerned can be indicated here.

- Type of partner

The type of partner is a pre-defined dropdown list of typologies used to categorize the type of partner.

- Subtype of partner

The subtype of partner is an additional field relevant for State aid only. The subtype of partner can be selected from a pre-defined dropdown.

- Legal status*

A legal status has to be selected (*mandatory field).

- Sector of Activity at NACE group level

The sector of activity at NACE group level is an additional field relevant for State aid only. The sector of activity at NACE group level can be selected from a pre-defined dropdown of NACE codes taken from the statistical classification of economic activities NACE Rev. 2 (2008) available via the Eurostat website

https://ec.europa.eu/eurostat/ramon/nomenclatures/index.cfm?TargetUrl=LST_NOM_DTL&StrNom=NACE_REV2&StrLanguageCode=EN&IntPcKey=&StrLayoutCode=HIERARCHIC

- VAT number

In this field, the partner organisation's VAT number shall be entered; the overall number has to be one block without spaces or hyphens. The correct VAT format has to be respected; it depends on the country selected in section “Address”. If VAT is not applicable, any other identifier needs to be filled in.

VAT number has to follow standard format per country

- AT: UID number: format ATU+8 characters (e.g. ATU12345678)

- CZ: DIČ number: format CZ + 8-10 digits
 - DE: USt-IdNr.: format DE+9 digits (e.g. DE123456789)
 - HU: ANUM number: format HU+8 digits (the first 8 digits of the national tax number)
 - HR: PDV-ID; OIB number: format HR+11 digits (e.g. HR1234567890)
 - IT: P.IVA number: format IT +11 digits
 - PL: NIP number: format PL+10 digits
 - SK: IČ DPH number: format SK +10 digits
 - SI: ID za DDV number: format SI+8 digits
- Other identifier number and description

The other identifier number can be used for any identifier other than the VAT number. The description field allows to indicate a reference to the registry, where the other identifier number can be found (e.g. company registry, etc.).
- PIC (from EC Participant Register)

This field allows to insert the partner organisation's 9 digit PIC from the EC Participant Register.

9.1.2. Address

In the Partner address section, the applicant is asked to fill in the partner main address and, if applicable, the address of the department/ unit/division.

- The country selected impacts on the format required for VAT information in section “Identity” (see chapter 9.1.1 Identity)

9.1.5.3. Partner budget

- The Partner budget section is the section where the partner budget is filled in under the available cost categories. The Partner budget section consists of 6 cost categories. However, Cost category 6 “Infrastructure and works” is not applicable for the third call.
- Make sure that the budget options are set and saved, before inserting the partner budget.
- In the third call for proposals, the partner budget can be organised only according either “Option 2” or “Option 3” of the combinations of Simplified Cost Options (SCOs) specified in chapter I.4.2.6 of the programme manual. Detailed information on budget options and flat rates can be found in the programme manual.
- Cost category “Infrastructure and works” is not applicable for the third call. Pilot actions might still include small investments below EUR 25.000, with items belonging to the cost category 5 “Equipment”.
- The project total budget is limited to EUR 800.000, corresponding to a maximum of EUR 640.000 ERDF budget.

 - Click “+ Add” to create a budget table under a cost category (except for “office and administration” and “travel and accommodation” since flat rate based)
 - Click “+” button to add a budget item,
 - Click the “trash” icon to delete a budget item.
 - For the budget item, enter the total amount in “Entry field for total”. The entered amount automatically appears under “Total” and needs to match with the sum of the amounts entered per period.
 - Depending on the number of periods defined in section A project identification, you need to split the Total of a budget item to periods.
 - The “Gap” shows the difference between the sum of amounts per periods and the Total amount
 - Alternatively, you can enter the amounts per period first and then add the Total in the “Entry field for total”.
 - To see all periods or the Gap calculator you might need to scroll the table.

9.1.6. Co-financing

- The Co-financing sub-section consists of two tables:
 - Co-financing
 - Origin of partner contribution
- The basis for the co-financing is the partner total eligible budget.

- If this section is filled in and the budget is updated, this section needs also to be updated. If not, a yellow warning message appears.

- In this part, the applicant needs to define where the partner’s own and external contributions come from.
- This table uses the total of partner contribution as total.
- The first row is always the partner’s own contribution (the partner name is prefilled).
- The legal status of contribution needs to be identical with the legal status selected in Partner sub-section “Identity”.
- By clicking the button “+add new contribution origin” the applicant user can add additional sources of contribution.
- For additional sources of contribution, the applicant needs to define the legal status of the contribution (“public”, “automatic public” or “private”) and insert the amount. The percentages are automatically calculated and also the subtotals and total partner contribution is automatically calculated.
- Detailed information additional sources of partner contribution can be found in the programme manual.
- The funding amounts are always rounded down. The difference between the total eligible budget and the funding amounts is allocated to partner contributions. Therefore, the total partner contribution is basically rounded up.
- In case of mismatch of the Total in “Origin of partner contribution” with the partner contribution in “Co-financing” and Error message in red appears indicating the difference. Information cannot be saved as long as the mismatch persists.

Please define the overall objective of the project.

- Make sure that it clearly contributes to the selected programme specific objective.
- The overall objective should provide the general context for what your project aims to achieve.
- It should describe the broader goal of the project for the benefit of its target group(s) and should point to the results (change) to be achieved by the project within the targeted peripheral and/or lagging areas.

C - Project description

C.7 Project management and communication

In addition to the thematic activities as described in the work plan, you need to foresee adequate provisions for project management, coordination and internal communication.

C.7.1 How will you coordinate and manage your project?

Please describe how the project management and coordination will be carried out, including the set-up of management structures, responsibilities and procedures, as well as risk management. Please also explain the provisions for quality management, i.e., how the quality of deliverables and outputs will be monitored and ensured, and indicate the responsible partner(s). Please also explain how the internal communication within the partnership will be organised.

C.7.2 What will be the general communication approach to increase awareness and knowledge about the project and its concrete outputs and results?

- This sub-section consists of text inputs fields and tick boxes to select cooperation criteria.
- Part of the text input fields are not applicable (N/A) for the third call and should be left empty.
- In C.7.4 Horizontal principles the user needs to select the type of contribution by clicking the toggle button with the applicable option.

C.7.4 Horizontal principles
Please indicate how your project contributes to horizontal principles and provide a short explanation. With regard to environment protection, please also include an explanation how the 'environmental sustainability by design' approach has been integrated and provide a brief assessment of possible environmental effects of your project.

10.8. C.8 Long-term plans

C.8 Long-term effects and durability
Projects should have a long-lasting effect in the territories and for the relevant target groups. Please describe below how this will be ensured.

C.8.1 Ownership/durability and lasting effects at territorial level
Outputs and deliverables should be made available and used by relevant target groups (project partners or other stakeholders) after the project's lifetime, in order to have a lasting effect on the peripheral or lagging areas. Please describe how outputs and key deliverables will stay available and will be taken up or upscaled by the project partners. Please also explain concrete provisions for sustainability and follow up actions, e.g., who will ensure financial and institutional support of outputs and results as well as their maintenance.

- The lump sums can be chosen from the dropdown list and settings predefined by the programme are automatically prefilled.

- The user needs to allocate the preparation and contracting costs lump sum to period “Preparation”.
- The lump sum can be allocated to one or more partners.
- The lump sum for preparation and contracting costs can be selected only once per project. This is checked by a pre-submission check.

▪ The last column of the tables shows the total lump sum amount per partner. This amount is added to the partner total budget.

- An Error message appears in case no period is selected.
- An Error message appears in case the lump sum amount is not correctly allocated to the partner(s).

Project lump sums table
In this table you can define your project lump sums. Please choose the applicable lump sums from the dropdown and allocate the lump sum cost to project partner(s).

⚠ Please update the lump sum table: The sum of the amounts per partner must match the total lump sum costs.

⚠ Please update the lump sum table: A period must be selected for each lump sum.

Check & Submit

- In this section the applicant user can perform the following actions:
 - Run the Pre-submission checks
 - Submit project application / Re-submit project application

14. Pre-submission checks

- Pre-submission checks shall safeguard a basic level of completeness and consistency of a submitted application form.

- Each Application form requires a successful pre-submission check of content before it can be submitted.
- It is highly recommended to run the pre-submission checks in due time and already during filling the different section of the application form. Do not keep the pre-submission checks until the very last moment, since you might run into time issues for keeping the deadline for project application submission.
- Note that, automatic checks do not replace human control of application contents.
- A successful pre-submission check is no guarantee that an application is fully complete and formally compliant!

- Pre-submission checks include verification of mandatory fields and conditions.

14.1.1. Execution of pre-submission check

You are about to officially submit your project application: CE9400007 – New Mobility
Make sure to submit your project in time before the call end date. Further information on the deadline can be found in the call information and in the project overview. Please be aware that after submission, changes to the application form are no longer possible.

Pre-submission check
Before you can submit your application form, the pre-submission-check needs to be valid. The check will provide you with an overview of missing or inconsistent data. Results do not update automatically. Run the check again after changes to your application form.

- The pre-submission check needs to be executed every time the user wants to submit or re-submit an application form.
- The results of the check are shown in an expandable tree: for each section of the application form a verification result can be displayed.
- Click “>” symbol to unfold the list and see the single issues.
- Click “<” symbol to collapse the list.
- If the pre-submission check passed successfully, the submit button will be activated.
- In case of changes in the application form after a successful check or the user left a section, the user needs to run the pre-submission check again.

Project Privileges

16. Granting Project Privileges

This feature allows multiple users to collaborate together in the same application form.

- It is only possible to invite users who are already registered in the system. The only required parameter to identify the user is the respective Jems username (e-mail used to register in Jems). Upon successful invitation, the invited user will see the respective project in his Dashboard.
- Please make sure you enter the full valid email address of collaborators.

- Collaborators might have different responsibilities in the project, therefore different levels of privileges are available:
 - VIEW - User can see all application from sections but cannot make any change.
 - EDIT - User cannot only see, but also modify/fill in the application form
 - MANAGE - Same as EDIT, plus the option to invite users to the project and set respective privileges.

- Project privileges are restricted to the level of a specific project application - each project is an “isolated island”. A user who is collaborator in many project applications, can have distinct privileges in different projects.

RISK of OVERWRITING INFORMATION

In case several users with edit or manage access rights work in parallel in the same project application there is the risk to overwrite information!

Please be careful when granting access rights to other users and coordinate who is working when in the application from. Parallel working, in particular in the same AF section should be avoided, since there is high risk to overwrite information of another user or having inserted information not saved.
