

SYM-CRAFT

ABOUT OUR PROJECT

This project fosters collaboration between craft-based SMEs and larger industries in textile, wood/furniture, and agro-food sectors, promoting innovative approaches to circular economy practices.

INNOVATING CRAFTSMANSHIP, DRIVING CIRCULARITY

CHALLENGE

Approaches to circular economy are often fragmented and inefficient. They suffer from a lack of cooperation and symbiosis across sectors.

SYM-CRAFT partners repurpose industrial waste into innovative craft products, pioneering eco-friendly business models for a sustainable and economically viable future.
